

1. STM32 Minimum System Board

2. Before downloading the program, it is necessary to connect the boot0 jumper cap to a high level;
Before running the program, it is necessary to connect the boot0 jumper cap to a low level;

3. Wiring method between PS2 receiver and STM32 minimum system:

PS2		STM32C8T6 core board
MOSI (DI)	----->	PA0
MISO (DO)	----->	PA1
CS (ATT)	----->	PA2
SCLK (CLK)	----->	PA3
